Final Rejection

1. Claims 1-27 are presented for examination.
2. The text of those applicable section of Title 35, U.S. Code not included in this action can be found in the prior Office Action.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claim 1 and 19 recites that power management logic comprising a state machine having a full power state, a low power state, and a power down state, configured to cause the medium interface unit to renegotiate from the high speed protocol to the lower speed protocol in response to an event signaling entry of said lower power mode, and to enter a power down state in the event that the lower speed protocol is not successfully negotiated. Claim 10 recites that suppressing a link-change signal at a wake-up detector; and entering a sleep state at the state machine where the network interface operates in a low power mode.

It is noted that the paragraph 31 in the specification do no disclosure the limitations reciting in claims 1, 10 and 19.

Claim 2-9, 11-18 and 20-27 are rejected because they incorporate the deficiencies of claims 1, 10 and 19 respectively.

Response to Arguments

6. Applicant's arguments filed 1/5/2009, which have been fully considered but they are not persuasive. Applicant's arguments with respect to claims 1-27 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
